Dear Belfast Water District Customers:

It has come to our attention that recently some of you have been receiving letters or phone calls from sales companies trying to get you to buy their services.

One such company is asking you to buy insurance to cover costs involved with repairs or replacing the water service line to your business or residence. Another is offering to perform water quality tests on the water.

We at Belfast Water want our customers to know that the District is not affiliated with these private companies or any other company that may make such offers. You, as our customer, do not have to accept any of these offers.

If you have any questions about the water quality sampling that the District continuously performs on your water or the water service supplied to your building, please do not hesitate to call our office at 207-338-1200, email info@belfastwater.org or access our website at www.belfastwater.org
