

## **UNSOLICITED PHONE CALLS ABOUT TESTING YOUR WATER**

Recently people in Belfast have been receiving phone calls about having their water tested. Typically this is an attempt to have someone come to your home and try to sell you water filtration systems or other products. The Belfast Water District is not associated with this type of contact with our customers.

The Belfast Water District does not solicit products or services regarding your water service. If the District needs to contact you it will be by letter or by phone call providing you with proper identification by the caller and the Belfast Water District representative who comes to your home.

If you are a Belfast Water District customer and have questions or concerns about your water service, you may call 207-338-1200 Monday thru Friday, 7:00 a.m. to 3:30 p.m.
